

HOW DO YOU KNOW

WHEN IT'S TIME FOR A NEW AC UNIT?

Key Indicators that Your AC Needs a Replacement

Most homeowners aren't sure when to get their AC units replaced. That's why we have gathered these indicators that could easily tell you that it's time for a new AC Unit.

1

It takes longer to cool the house

Most homeowners aren't sure when to get their AC units replaced. That's why we have gathered these indicators that could easily tell you that it's time for a new AC Unit.

2

An exaggerated power Bill

If your power bill spikes without due cause, the most likely culprit is your AC unit. A new AC unit will save you some money.

3

Moisture stains appear on the ceiling

Is your AC unit situated in the attic? Then any water stains on the ceiling could indicate a serious problem with the unit. Invest in AC replacement services from us; Best Air Conditioning and Heating.

4

Constant repairs

Regular maintenance is standard for most AC units; however, it's best to invest in a new AC unit if you notice increased repairs with no notable improvement.

5

A low SEER rating

If your AC unit has a Seasonal Energy Efficiency Ratio below 13, it is best to replace it because it is not energy efficient and will cost you more in power bills.

A low SEER rating
